

## Remote Access

Registration IDs will allow your users to access ClinicalKey while not on your institution's network. To provide this access, please distribute a remote access ID and registration password to individual users.

Users can reference the instructions below to help them register for remote access and create a ClinicalKey user profile.

## Registering for ClinicalKey Remote Access

1. Before registering, please log out of any ClinicalKey personal profile you are logged into.
2. Go to [www.clinicalkey.com/register](http://www.clinicalkey.com/register).
3. Enter the **Registration ID** and **Registration Password** into the boxes.

The screenshot shows the ClinicalKey website interface. At the top, the ClinicalKey logo is on the left, and navigation links for 'Books', 'Journals', 'More', 'Login', and 'Register' are on the right. Below the logo is a search bar with a dropdown menu set to 'All' and a search icon. The main content area is titled 'Registration ID redemption'. It contains a paragraph explaining that registration IDs allow users to associate their profile with a new organization. Below this is a note: 'Note: Adding an association with a new organization will not override or remove associations with existing organizations.' A note indicates that asterisks (\*) denote required fields. The registration form consists of two input fields: 'Registration ID:' and 'Registration Password:', both marked with an asterisk. A blue 'Continue' button is positioned below the password field. At the bottom of the page, there are links for 'Contact Us', 'Resource Center', 'Terms & Conditions', 'Privacy Policy', 'Registered User Agreement', and 'Help', along with social media icons for Facebook, Twitter, and YouTube. The footer text reads 'Copyright © 2014 Elsevier, Inc. All rights reserved.'

4. Click **Continue**.

5. **If you already have a username and password for ClinicalKey, ScienceDirect, or Scopus:**

Enter that username and password into the highlighted boxes and click **login**. You can use that information to access ClinicalKey and that username will now be authenticated when accessing ClinicalKey remotely.

**If you do not have a current username or password:**

Click **Register Now** to create one. Fill in the required information and click **Register**. You now have a ClinicalKey user profile that is authenticated when accessing ClinicalKey remotely.

6. Visit [ClinicalKey.com](http://ClinicalKey.com) to search for content.
